Founders

Dr. Christopher Baumeister

Chris is the Co-Founder and Managing Director at nello, and is the head of Product Development and Marketing. He got his doctoral degree from TUM and is therefore also known as “Dr. B”. Some people also call him the “Cookie Monster” as he eats so many cookies, but you wouldn’t know it. He is very keen on new technologies and loves to create things.

Daniel F. Jahn

Daniel is the Co-Founder and Managing Director at nello in charge of sales and financing at nello. He grew up in Pakistan, Egypt and Indonesia, and loves to live in big chaotic cities. Daniel is a scholar of the German National Academic Foundation, graduated with his Master’s from TUM and his MBA from INSEAD. He is into trail running and boasts a golf handicap of 9.

Ermal Guni

Ermal is the good looking Albanian IT guy, otherwise known as the Co-Founder and head of IT Backend at nello. Ermal is a Backend wizard, specialising in web and mobile applications and helping to build products based on what customers need. He speaks 5 languages and his meticulous implementation skills allow him to turn technology dreams into a reality.
Iurie Tap

Iurie is the Co-Founder and head of Mobile Development at nello, developing mobile applications that users love for both iOS and Android platforms. Originally coming from Moldova, he lived and studied in Germany, Thailand and the US. He obtained his Master of Informatics from TUM, during which he spent 1 semester as a visiting scholar at Carnegie Mellon University, US. Iurie has been practicing martial arts and combat sports for most of his life, and even taught Muay Thai during his Bachelor’s degree.

Timur Yigit

Timur is the Co-Founder and Head of Hardware at nello. This Electronics R&D Engineer has lived with the bedouines in the desert in Egypt, spent a year in Australia working as a diving instructor and he’s worked in the German Aerospace Centre. Space, sea and sand, all within 15 years.
